BEAMING WITH PRIDE

HOW CAN FONTAINE® AFFORD TO OFFER THE XTREMEBEAM® LIFETIME WARRANTY? SIMPLE. WHEN YOU BUILD THE STRONGEST MAIN BEAM IN THE INDUSTRY...WARRANTY CLAIMS ARE NOT AN ISSUE.

IT ALL BEGINS WITH HIGH QUALITY STEEL THAT IS CUT TO PERFECTION USING COMPUTER CONTROLLED PROCESSES. THE RUGGED ONE-PIECE MAIN BEAM WEB DESIGN FEATURES A GENEROUS CAMBER TO PROVIDE ADDED STRENGTH UNDER LOAD. 3/8" STEEL TOP AND BOTTOM FLANGES ARE WELDED ON BOTH SIDES OF THE BEAM USING ROBOTICS TECHNOLOGY. THIS TAKES THE GUESSWORK OUT OF THE PROCESS TO GIVE OUR CUSTOMERS CONSISTENT QUALITY AND SUPERIOR WELD INTEGRITY. ADDITIONAL STEEL

Computer controlled cutting assures the dimensional integrity of the Fontaine XtremeBeam®.

REINFORCEMENT BETWEEN THE TWIN BEAMS DELIVERS MORE THAN ENOUGH STRENGTH AND STABILITY TO HANDLE THE TOUGHEST JOBS—INCLUDING SINGLE COIL HAULING.

EVERY DETAIL IN THE MANUFACTURING PROCESS IS GEARED TO PRODUCE THE HIGHEST QUALITY PRODUCT. FOR EXAMPLE, PRIOR TO PAINTING, THE BEAM IS SHOT BLASTED FOR MAXIMUM PAINT ADHESION. THEN, AFTER APPLYING PRIMER, AN ELECTRO-STATICALLY APPLIED PLURAL COMPONENT URETHANE TOP COAT GIVES THE XTREMEBEAM® AN UNEQUALED APPEARANCE AND SUPERIOR RESISTANCE TO CORROSION.

Robotic welding on both sides of the 3/8" x 5" top and bottom flange provides greater strength.

ONLY FONTAINE® OFFERS THE XTREMEBEAM®. IT'S JUST ONE OF MANY REASONS WHY MORE FLEETS AND OWNER OPERATORS ARE EARNING THEIR LIVING WITH FONTAINE® THAN EVER

BEFORE. THEY KNOW THAT FONTAINE® OFFERS:

- THE BEST QUALITY
- THE HIGHEST RESALE VALUE
- THE MOST RELIABLE PERFORMANCE
- THE BEST WARRANTY IN THE BUSINESS

Paint adhesion is dramatically improved by an automated cleaning process.

Electrostatically applied plural component urethane top coat provides superior resistance to corrosion.
